

Electric Punching Machine LY-16D

Specification:

1. Used for installation of aluminum windows and doors and the punching processing of aluminum profiles.
2. Punching process, by changing processing position, various types profiles can be processed.
3. Large working capacity for working more stations.
4. Electric power and good processing quality.

Technical parameter

Power supply	Made to order
Motor power	1.5 kw
Press nominal pressure	30KN
Closing height	125mm
Processing deviation from Straightness	± 0.1 mm
Cutting profile surface roughness	Ra12.5um
Contour dimension	1000*1400*1200mm
Weight	400kg
